

MANAGING A REMOTE TEAM

Management can be a tough gig when everyone is sat together, but it can be even tougher when your team is out of sight. In this 1hr Virtual learning session we will help you to become a little more proactive when managing a remote team.

Here's a flavour of what we cover:

- ▶ How do you overcome the challenges of managing remote teams?
- ▶ What steps should you take to build trust?
- ▶ How to create open lines of communication
- ▶ How should you establish routines?
- ▶ How do you help remote workers feel part of a team?
